Anurag Pandey

8429709374 | anurag637@zohomail.in | LinkedIn | Github | Leetcode

Summary

AI & Machine Learning Engineer with hands-on experience in developing and deploying AI/ML solutions using Python, NLP, Deep Learning, and LLM technologies. Experienced in building real-world applications involving LLM systems, deepfake detection, resume screening, and machine learning model development.

Technical Skills

Languages: Python, Java, DSA, SQL, AWS(Basic)
AI/ML Frameworks: LLM, RAG, TensorFlow, Scikit-learn, NLP, Deep Learning, Matplotlib
Tools & Technologies: Power BI, VS Code, Jupyter Notebook, PyCharm, Apache Netbeans
Web Technologies: FastAPI, Streamlit
Version Control & Deployment: Git, GitHub, Vercel, Render, Railway, Docker

Experience

C DAC **June 2024 – July 2024**
Data Science Intern Noida, India

Built a spam email classification system using NLP techniques (TF-IDF, tokenization).

Evaluated models like Logistic Regression and SVM, and deployed a live interactive Streamlit web app.

Edunet Foundation (in collaboration with Microsoft & SAP) **Feb 2025 – March 2025**
AI Intern – TechSaksham Program Remote

Developed a Resume Screening and Ranking System using Python, NLP, Scikit-learn and with hands-on experience in data preprocessing, model evaluation, and deployment.

MAN MACHINE Technocrats Pvt. Ltd. **June 2026 – Sep 2026**
Machine Learning Intern Bangalore, India

Developed machine learning models using Python with hands-on experience in data preprocessing, feature engineering, and model evaluation. Worked with the technical team on testing, debugging, and improving machine learning solutions for software and web-based applications.

Projects

Deepfake Detection System **Feb 2025 - May 25**

Python, Deep Learning, OpenCV, TensorFlow, FastAPI, Streamlit.

Developed a CNN-based deepfake detection system using DFDC and FaceForensics++ datasets.

LLM Inference Gateway and Prompt Router **Jan 2026 - May 26**

Built an LLM Inference Gateway and Prompt Router with FastAPI for request routing, caching, monitoring.

Developed using Python, Hugging Face Transformers, and deployed the application on Vercel.

Education

K. R, Mangalam University **2027**
Bachelor of Technology – Computer Science (AI & ML) |(CGPA: 8.5) Gurugram, Haryana

LPM Public School **2022**
Senior Secondary – Science Stream (12th Grade) (Percentage: 79 %) Gorakhpur, Uttar Pradesh

Certifications

AI Foundations Associate | **Oracel** **Sep 2025**

Data Processing using Python and Machine Learning | **Isro** **Feb 2025**

Prompt Engineering | **Cognitive Class** **Jan 2025**

Data Analysis with Python | **IBM** **Nov 2023**

Achievements

First Prize Winner, HACK4 Kaggle Hackathon **April 2025**
